# Product overview

## SWITCHBOARD TECHNOLOGY

### Industrial communication technology

Industrial ethernet switches and media

PROFIBUS and PROFINET connectors

USB and RJ45 connectors

Rectangular connectors

Pre-assembled front connectors

### Cable management, cable glands

Cable entry systems for cables with and without connectors

Cable entry systems for pre-terminated cables

EMV-shielding

Cable glands, plastic, brass, EMV, ATEX

### Industrial lighting, power supply

LED signal tower lights

LED machine work lamps

LED lights

Power supplies

### Multifunction meters

Temperature controllers

Counters

Meters

Plug-N-Wire Multifunction Meters

Digital Ammeters and Voltmeter

### Relays, time relays, monitoring relays

Industrial relays

Solid state relays

Time relays

Time switches

Monitoring relays

### Switchboard accessories

Filter fans

Heaters and thermostats for control cabinets

Sockets

Labels

Float switches

## SENSOR TECHNOLOGY

### Standard sensors

Photoelectric sensors

Inductive and capacitive sensors

Ultrasonic sensors

Foot switches

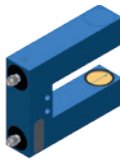

M8 and M12 cables and connectors

### Special sensors

Colour control and measurement

Distance measurement and positioning

Surface inspection and counting

Product labelling and tracking

### Sensors for the lift and door industry

Light curtains

Light barriers

Reflective sensors

TOF 3D sensors

Positioning and control systems

## MEASUREMENT AND CONTROL TECHNOLOGY

### Pressure/Flow sensors

Pressure switches

Differential pressure transmitters

Air flow and velocity transmitters

Pressure and flow transmitters

Pressure transmitters for liquids

### Temperature, humidity, CO<sub>2</sub> sensors

Room operating units

CO<sub>2</sub> and humidity transmitters

Passive temperature cable and surface sensors

Differential pressure gauges and manometers

Air quality CO<sub>2</sub> and VOC sensors

# Company profile

Large warehouse

Short delivery times

Catalogues and price lists online

Your gateway to fast and secure deliveries

**ERGATE Automation - your partner for industrial products.**

- ERGATE is a traditional family business with a professional team and years of experience.
- Our strengths are competent technical advice, short delivery times based on a modern logistics system and a responsive service with a high level of technical expertise.
- As our customer, you are our focus - at all times.
